

Winter Services

Your pool needs attention throughout the winter! We offer winter services so that you're ready for anything! Protect your investment!

Cover Guard Services

RIX Pool & Spa Cover Guard Service is designed to minimize and even prevent winter damage to the pool and equipment from frost, snow and ice. The Cover Guard Service provides one service each month, and is available in November, December and March. This service is not provided during January and February due to weather conditions, HOWEVER, we will always respond to emergencies anytime during the year.

- Pool Covers are inspected for tears. Adjustments are made to water bags covers. Cover springs are also checked for safety and adjusted.
- Pool water level is checked on pools with mesh covers for proper height. If water is too high, it is lowered for additional charge. If level is too low, a note will be left for the homeowner to raise the water to the proper height.
- Water bag covers are pumped clean of water. Debris is removed for an additional charge.
- Chemical balance is checked to help ensure against algae growth. (Chemical charges will apply accordingly if needed).
- Prevents cover damage.
- Pool opens cleaner.

De Filter Grid Assembly Cleaning

The manifold top, air bleed and all filter grid elements will be inspected, descaled and degreased. This service will extend the life of your pool equipment.

The Grid Assembly is dismantled

Then the grids are cleaned in a degreasing and descaling solution

The grids are soaked in an acid solution

The grids are then put in a neutralizer bath and go through a final rinse

Reassembled and ready for another season

Automatic Pool Cleaner

A complete tune up and cleaning service. We'll disassemble, inspect, clean, lube, reassemble and test your pool cleaner so it operates to its full potential next season.
